

BARBADOS METEOROLOGICAL SERVICES

Precipitation Outlook for May 2017 to July 2017

AN = Above Normal

N= Normal

BN= Below Normal

The circles indicate stations with rainfall data in excess of 30 years.

The map showing rainfall across the island for the season May 2017 to July 2017 is suggesting that apart from nine rainfall stations which are forecasted to be neither above nor below normal, two rainfall stations are forecasted to be near normal.
