

BARBADOS METEOROLOGICAL SERVICES

Precipitation Outlook for November 2018 to January 2019

AN = Above Normal

N= Normal

BN= Below Normal

The circles indicate stations with rainfall data in excess of 30 years.

The map showing the rainfall for the season November 2018 to January 2019 is forecasted to be below normal for all stations with the exception of Broomefield and Lears which are tending towards climatology. Haggatts is considered missing due to two probabilistic categories being equal.
