

BARBADOS METEOROLOGICAL SERVICES

Precipitation Outlook for November 2017 to January 2018

AN = Above Normal

N= Normal

BN= Below Normal

The circles indicate stations with rainfall data in excess of 30 years.

The map showing the rainfall for the season November 2017 to January 2018 is forecasted to be above normal for 10 stations with the exception of Broomefield, Bowmanston and Pickering which are tending towards climatology. Haggatts is considered as “missing” due to probabilities being equal in the below, normal and above categories.
