UPDATE: A HIGH-WIND ADVISORY REMAINS IN EFFECT FOR BARBADOS.

Issued: Tue, 10 Jun 2025 06:05 PM

Strong winds continue to affect Barbados with these windy conditions expected to persist into tomorrow, June 11th, 2025. Therefore, this HIGH WIND ADVISORY has been extended.

****** Hazard Info ******

Possible Impacts

There is the possibility of the tumbling or rolling of unsecured objects such as inflatable structures, tents and garbage cans. Trees could be blown down along with large branches and power lines.

What you Should do

The public is encouraged to monitor the BMS, DEM and GIS websites and their respective social media pages along with the local media networks for further information on what you should do.

Discussion

The Atlantic high-pressure system continues to generate winds of 20 to 30 knots (35 to 55 km/h) across the island with periods of higher gusts possible, especially in the vicinity of showers.

Discussion

A high-wind advisory is issued when sustained winds of 25 to 33 knots (47 to 61km/h) are affecting or forecast to affect the land area within 36 hours.

This HIGH-WIND ADVISORY was updated at 6 pm Tuesday, June 10th, 2025 and will be updated/terminated at 12 noon, Wednesday, June 11th, 2025 sooner if conditions warrant.
